

# Orwig's Livestock Supplement Tubs International Nutrient Analysis

## Much More than Convenience

At Orwig's Tubs International, Inc., we strive to be the industry leader in the low moisture tub business. No other tub company out there offers the livestock producer so much for so little. Our customers say these tubs **more than pay** for themselves.

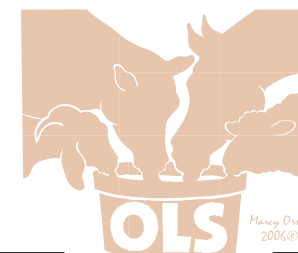

Unlike the competition, Orwig's Tubs do not need additional minerals fed with the tub. Each formulation is prepared to fit a specific phase of livestock production. The Orwig's Tubs contains necessary energy, proteins, vitamins, minerals and enzymes in one complete package. The Orwig's Tubs remains available continually 24 hours a day, 7 days a week. All you need to make available is roughage, fresh water and salt on the side.

This is simply the best tub line available today. Orwig's Tubs have more in them so your livestock get more out of them. We use chelated copper, chelated zinc, lomite, and zinc methionine, very few others do. We can incorporate Diatomaceous Earth into any formulation at a much higher percentage than our competition. With our state-of-the-art OLS process, we go above and beyond to prepare the most consistent crystallized molasses base cooked for each season. You **can** control the consumption, therefore, controlling your cost.

Formula	Special Features	Feeding Rec.	Protein %	Fat %	Crude Fiber %	Ca %	P %	Salt %	Mg %	K %	Cu mg/kg	I mg/kg	Mn mg/kg	Se mg/kg	Co mg/kg	F mg/kg	Zn mg/kg	Chelates	9 B Vitamins	Vitamin C	Vitamin A IU/kg	Vitamin D IU/kg	Vitamin E IU/kg	Vitamin K
